

Postdoctoral Fellow position
Global Mental Health and Mood Disorders,
UofT Dept. of Psychiatry & CAMH

Position Description:

A postdoctoral fellowship opportunity at the University of Toronto Dept. of Psychiatry & Centre for Addiction and Mental Health (CAMH) is available immediately in the area of global mental health and mood disorders. Learning experiences involve various aspects of managing and planning international collaborative projects involving mental health education with a focus on underprivileged populations in Canada and developing countries. This includes but is not limited to involvement with funding proposals/applications, project implementation and coordination as well as data collection.

Qualifications:

The successful candidate will have a MD or PhD degree in mental health, public health or in a related area with excellent oral communication skills in English. Previous research experience including scientific writing and publications as well as expertise in statistical analysis would be an asset. Candidates with proficiency in a second language (such as Mandarin or Spanish) as well as experience in international collaborations would be preferred.

Salary: Will conform to standard institutional guidelines.
